

QA Equipment Standards

Quidditch Australia subscribes to all international equipment rules and policies, as outlined in IQA Rulebook 2016-18 and our own amendments document.

The following are the QA Gameplay Standards for equipment, as used at QA organised events and recommended for all regular season play:

QUAFFLE: Baden Matchpoint volleyball (size 5)

BLUDGER: Hart Sport numbered playball.

BROOMS: Any brooms provided they are legal and cleared by the Tournament Director/Head Referee.

HOOPS: Host provided. Hoops must comply with all Rulebook regulations as well as be free of significant, externally facing sharp points. This necessitates the rounding of corners and edges should any part be made of wood.

At all other QA sanctioned but externally organised tournaments, different game balls may be used and brooms provided by the Tournament Director provided all such equipment matches the rulebook and policy defined standards for equipment and is cleared by the Gameplay Department for use in ranked play.

The provision, supply and nature of all other equipment is at the discretion of the Tournament Director provided all such equipment matches the rulebook and policy defined standards for equipment and is approved by the Gameplay Department for use in ranked play through a request sent to gameplay@quidditch.org.au
